

NINE

In a context of fast-paced lives, global overproduction and overloaded homes, Nine offers a sleek minimalist and ageless design for those in need to slow their rhythm down and disconnect from their busy days. With its organic curves, a frame close to the floor and a comforting Swiss wool envelop, Nine is an invitation into a soft and soothing atmosphere.

Offering a bedside table on each side with hidden drawers and a bed bench with storage, Nine allows many discrete compartments

without the feeling of a cluttered space. The design is thought as simple as possible to emphasize Elite upholstery and cabinet making know-how and to enhance the elegance of the materials: Swiss wool, oak wood punctuated with polished brass details.

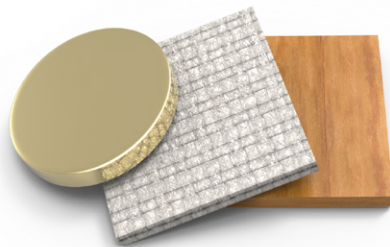

Positioned against a wall or floating like a cloud in the middle of a room, Nine is an architectural piece. It offers a space within the bedroom space: a soft and cosy nest to bring value and consideration back to our sleep and to the bed object.
